

East Midlands Regional Council Statement

Nomination - Christina McAnea UNISON General Secretary

Regional Council believes Christina offers a clear, ambitious, responsible programme for the union. Her vast experience as a no-nonsense woman is exactly what UNISON members need as we enter what promises to be a difficult and challenging period.

She has a proven depth of character, overcoming adversity to become one of the most senior and successful women in the union. She represents a real departure from the past, the first woman General Secretary with modern ideas for the future.

Regional Council was confident she can quickly and successfully implement her ideas helping to build a bigger, better and stronger union.
