

Julie Davies flower workshops

THE FLORIST. THAT TEACHES

flower arranging workshop

Wednesday 6 July 2022
6pm start

Flowers in a mug - in a flower pot, or a tin can

For this project you'll need*:

- a mug from your kitchen cupboard, or you may prefer to use a straight-side ceramic pot instead
- flower foam - depending on the size of your container you'll probably need less than 1/3 of a block
- flowers and greenery - you won't need much. You could buy a mixed bunch of flowers from your local supermarket and pick some greenery from your garden

And, as an optional extra ...

With the summer holidays around the corner you could add decorative summer charms - bees, butterflies, ribbons and so on.

You'll also need a pair of scissors/secateurs. Your kitchen scissors will be fine - [these are my favourite floristry scissors](#)

*Clicking the underlined links will take you to Amazon, so you can see what you need
