

Excel Dashboard

7 & 8 JUNE
10AM - 1PM VIA MS TEAMS

Do you want to make your data more meaningful? Do you want to make your data more interactive? By creating an Excel dashboard you will be able to see all the important information about your data at a glance.

- Create & edit pivot tables
- Use colour visuals to make the data stand out
- Connecting everything together
- Create your interactive Dashboard
- Add slicers and timelines to interrogate data
- Dashboard tips and general advice
