

HATE HOPE HATE

MISINFORMATION

This session explores what dis/misinformation is, its dangers and why humans are so drawn towards conspiracy theories

3 JUNE (10AM - 11.30PM)

All humans suffer from 'Confirmation Bias', our habit of believing things that already fit with our values. This can mean we can be uncritical of some sources. We are now seeing much more malicious content abusing this. This module aims to build members' understanding of the topic and how to deal with it.

Conspiracy Theories are growing and we need to arm ourselves with a greater understanding of why to help those caught in the web, often on social media platforms.

Hope not Hate is the world's leading authority on the extreme right and are working in partnership with UNISON on a series of workshops to help combat misinformation and challenge hate.
