The Power of Perception

Wednesday 11th June

12:30pm 1:30pm

Online

The way in which we're perceived can have a significant impact on how we work. Whilst we can't control whether someone likes us, we can control whether someone trusts us, thinks we're capable of our jobs and whether someone wants to work with us. In this workshop we look at the ways in which we can affect how we're perceived and come away with an awareness of how we're using our voice and body language
